SKILLS

Software Development: Python (FastAPI), PHP, JavaScript/TypeScript, Go, Node.js, MySQL, PostgreSQL, Code Review, Testing

Tools: GIT, Cursor, Antigravity

EDUCATION

Information System | BINUS University Jakarta 2021 – 2024
GPA 3.55/4.00

Informatics Management | AMIK BSI Jakarta 2014 – 2017
GPA 3.46/4.00

EXPERIENCE

Full stack Developer | Badan Siber dan Sandi Negara

1 March 2022 – Now

- Conduct User Acceptance Testing (UAT) on web applications to prevent errors in the business processes of the developed application.
- Develop the internal website interface using HTML, jQuery, Bulma, Bootstrap, and VueJS.
- Develop REST APIs and orchestration management using the SOLID Design System principles within the Laravel framework and WordPress services.

Annotation Analyst

- **Static Preference Ranking (SPR):**
 - Comparing two possible responses to a prompt across four key dimensions: Harmlessness, Honesty, Helpfulness, and Format, Style, and Structure.
 - Evaluating each dimension to determine which response is superior and to what degree.
 - Assigning an overall rating on a scale of 1 to 7 for each response, using dimension-level evaluations to inform the final assessment.
- **Interactive Preference Collection (IPC):**
 - Creating complex human utterances and evaluating responses from two distinct agents.

- Comparing responses across dimensions: Harmlessness, Honesty, Helpfulness, and Format, Style, and Structure.
- Providing detailed feedback on preferred responses for each dimension and overall, with ratings on a 1 to 7 scale.
- **Verification, Review, and Annotation (VRA)**
- **Arabic Image Annotation:**
 - Specialized in annotating images with contextually relevant labels and descriptions for Arabic language content, considering cultural references and idiomatic expressions.

Web Application Developer | PT Bank Tabungan Negara

October 2023 – March 2024

- Design and develop a web application for bulk upload and document management.
- Implement the frontend based on the design provided in Figma to ensure consistency between design and technical implementation.

IT Developer | PT Meindo Elang Indah

1 November 2021 – 15 February 2022

- Developed and launched an intuitive web application for approval submissions and purchasing using HTML, CSS, jQuery, and the Laravel framework, aimed at improving approval process efficiency.
- Analyzed and optimized business processes to enhance productivity and profitability.
- Facilitated engaging and effective training sessions to empower users in maximizing the application's use and achieving optimal results.

IT Developer | PT ILCS

1 September 2019 – 30 October 2021

- Designed and developed mobile and web applications using Apache Cordova, Framework7, CodeIgniter 3 and 4, jQuery, Oracle DB, MySQL, and PostgreSQL.
- Led a migration project to upgrade the codebase from PHP 5 to PHP 7.
- Improved and ensured the quality of PHP code to deliver secure and user-friendly applications.
- Built a parallel conversion system, mapped data, and performed data cleaning using queries and spreadsheets.
- Collaborated with cross-functional teams to consistently deliver high-quality solutions on time and within budget.

Junior Web Developer | CV Aacreative

1 April 2019 – 31 August 2019

- Developed mobile applications using Apache Cordova, Framework7, and jQuery.
- Developed RESTful APIs using the CodeIgniter 3 framework and MySQL.
- Ensured the developed code adhered to the appropriate standards.
- Collaborated with the development team to integrate the backend and frontend, creating an optimal application.

IT Staff | PT Garuda Mas Putera Esa

1 August 2018 – 28 February 2019

- Maintained and troubleshoot hardware, software, and Windows operating systems.
- Maintained and troubleshoot network systems, as well as configured basic switches and routers.
- Performed analysis and reporting on financial, customer, and business inventory data for timely decision-making.
- Provided high-quality IT support services to ensure smooth business operations.
